

3rd International Scar Club Meeting

25-27 March 2010
Faculty of Medicine, Montpellier, France

SCIENTIFIC PROGRAMME SURGERY & BIOLOGY: HOW & WHERE THE 2 CAN MEET?

THURSDAY 25 MARCH

TIME	SESSION	ROOM
08h30-09h00	Welcome and Introduction	Auditorium
09h00-09h30	Keynote Presentation Biological background of scars <i>Esther Middelkoop (Beverwijk, The Netherlands)</i>	Auditorium
09h30-10h50	New Antiscarring Agents <ul style="list-style-type: none">Potential new pharmaceuticals for the prevention and reduction of scarring – clinical trial and scientific results <i>Mark Ferguson (Manchester, UK)</i>Electrical stimulation could control cell behaviour to reduce wound scarring <i>Christine Pullar (Leicester, UK)</i>5 FU <i>Luc Teot (Montpellier, France)</i>Could Extracorporeal Shockwave Therapy (ESWT) Play a Role in the Treatment or Prophylaxis of Scar Tissue <i>Schaden Wolfgang (Wien, Austria)</i>	Auditorium
10h50-11h05	Coffee Break	Exhibition area
11h05- 11h35	The optimal trial design and endpoints for the assessment of scarring. <i>David Fairlamb (Manchester, UK)</i>	Auditorium
11h35-12h30	Interactive Session with Patients <ul style="list-style-type: none">Introduction <i>Luc Teot (Montpellier, France)</i>Live Presentation of Cases	Auditorium
12h30-14h00	Lunch	Exhibition area
14h00-14h30	Design, set-up and management of the first multinational phase III clinical trial in scar revision surgery <i>Mark Cooper & Julia Cook (Manchester, UK)</i>	Auditorium
14h30-15h00	New surgical approach in scarring management <ul style="list-style-type: none">Surgical treatments for keloids and hypertrophic scars Importance of tensile reduction using flaps and subcutaneous/facial sutures <i>Rei Ogawa (Tokyo, Japan)</i>	Auditorium
15h00-16h25	Improving Scar Outcomes combining surgery & other techniques <ul style="list-style-type: none">Dermal Substitutes:<ul style="list-style-type: none">Long term effectiveness of dermal substitutes in scar management <i>Esther Middelkoop (Beverwijk, The Netherlands)</i>Hyperkeratosis and dermal substitutes <i>Luc Teot (Montpellier, France)</i>Stem Cells and Reconstructive Surgery<ul style="list-style-type: none">Fibroblasts and keratinocytes: two key cells in skin wound repair.Place of stem cells. <i>Bernard Coulomb (Paris, France)</i><ul style="list-style-type: none">Stem Cells and Reconstructive Surgery <i>Franco Bassetto (Padova, Italy)</i>	Auditorium
16h25-16h50	Tea Break	Exhibition area
16.50-19.00	Free Papers <ul style="list-style-type: none">Clinical Case Reports	Auditorium

FRIDAY 26 MARCH

TIME	SESSION	ROOM
09h00-09h30	The use of silicone in the conservative treatment and rehabilitation of severe scars <i>Prof Van den Kerckove (Belgium)</i>	Auditorium
09h30-10h00	Mechanobiology of cutaneous wound healing and scarring <i>Rei Ogawa (Tokyo, Japan)</i>	Auditorium
10h00-10h30	Seeing is believing. Amazing results with a herbal preparation for hypertrophic scars. <i>Jain Pradeep (Varanasi, India) & Nikolaos Kostopoulos (Athens, Greece)</i>	Auditorium
10h30-11h00	Coffee Break	Exhibition area
11h00-11h30	Where are we in evidence-based medicine? - Where are we in evidence-based medicine in physical treatments? <i>Claude Roques (Lamalou-les-Bains, France)</i> - <i>Sylvie Meaume (Paris, France)</i>	Auditorium
11h30-13h00	Laser Session - Lasers in scar management <i>Ken Dolynchuk (Manitoba, Canada)</i> - <i>Regine Bousquet-Rouaud (Montpellier, France)</i> - <i>Ryan Maloney (Phoenix, USA)</i>	Auditorium
13h00-14h00	Lunch	Exhibition area
14h00-14h30	Keynote Presentation The neurological response to burn injury <i>Fiona Wood (Perth, Australia)</i>	Auditorium
14h30-15h30	Research • Do keloid scars provide a niche for stem cells? <i>Ardehir Bayat (Manchester, UK)</i> • <i>An in vitro</i> model to measure and demonstrate load-induced collagen matrix growth <i>Alvena Kureshi (London, UK)</i>	Auditorium
15h30-16h00	Keynote Presentation Surgical vs non-surgical treatment of scarring: the rational thought behind <i>Wei Liu (Shanghai, China)</i>	Auditorium
16h00-16h30	Tea Break	Poster area
16h30-18h30	Free Papers (parallel sessions) • Research • Clinical Trials	Auditorium Conseil Room
19.30-23.00	Special Evening	

SATURDAY 27 MARCH

TIME	SESSION	ROOM
09H30-09H50	Fat injection improve scar evolution <i>Mustafa Zaidi (Tripoli, Lybia)</i>	Auditorium
09H50-10H10	Cryoshape <i>Uberto Giovannini (Metz, France)</i>	Auditorium
10h10-10h30	Skin improvement with needling <i>Matthieu Beustes-Stefanelli (Sierre, Switzerland)</i>	Auditorium
11H00-11H15	Coffee Break	Poster area
11H15-12H30	Round Table 1 st Analysis of questionnaire on Scars – <i>Rei Ogawa (Tokyo, Japan)</i> End of the Meeting	Auditorium
